Putting The Professional Back Into Professional Development

LOCATION: Policy In Practice
THEMES: Staffing, Well being
SPEAKERS: Jon Tait, Deputy Headteacher and Author, Acklam Grange School, Middlesbrough

Ask yourself these questions about your current CPD programme:

- Would you class your approach to professional development as being professional?
- Have you got a culture of learning amongst your staff?
- Does your CPD programme have real impact on the quality of teaching in your school?
- Would you be proud of it if you had to stand up at a national conference and speak about it?

If you're answering 'no' to any of the above, Jon's session will give you time to reflect on where your strengths and weaknesses are when it comes to designing your school's programme of professional development. Let's think about:

- Innovative delivery methods.
- Creating a culture of learning amongst the staff in your school.
- Designing a programme that is done WITH people, not TO people.

How To Recruit And Retain The Best Whilst Cutting Costs

LOCATION: School Business

THEMES: Staffing, Funding

SPEAKERS: Gavin Beart, Senior Divisional Director, Reed Education. Co-Speaker Tracey Dawes, Solutions Director, Reed Specialist Recruitment.

SPONSORED BY: Reed Educational

- With the recruitment landscape changing and the increasingly stringent public sector funding, schools and local authorities have been looking for more cost effective and practical solutions for their recruitment needs. The way in which the education sector has grown, has resulted in frameworks being introduced to ensure that recruitment solutions offer the best in terms of price, quality and quantity. Gavin will discuss the market frameworks, their uses and the simplest routes to market.
- He will introduce the concept of a managed service solution which is a tailored approach to recruitment needs, taking control of the whole process and management of a supply chain. This provides schools with one point of contact, increased visibility on spend and greater savings through a streamlined process.

YOUR EDTECH CHECKLIST

Bett is the world's leading education technology event where educators can discover more than 800 innovative edtech suppliers, see practical solutions, share experiences and learn from industry experts in an agenda programme featuring more than 175 speakers. Bett has teamed up with its Advisory Group and EDUCATE to come up with the questions that might help you have a more informed basis to your buying decisions at Bett. Make sure you have these handy questions to pose to Bett exhibitors when you meet them at the show.

1. THE PRACTICALITIES

This covers infrastructure, staff training and CPD, the ongoing costs, and the sustainability of the purchase.

- How long does it take the average educator to learn how to use, and implement your product?
- Is it necessary to purchase any additional software etc to increase the products' potential?
- What software is it compatible with?
- What pedagogical training do you provide in respect of the integration of your product in schools?
- How do you support schools to sustain and develop their use of the product over time?

2. THE EDUCATION VALUE AND SPECIALISMS

This area covers the core benefit the product offers. And, whether it's going to make a tangible difference to the lives of your students. Either on their needs today, or their skills for the future.

- How does your product make educators' lives easier?
- Can you explain the product and its educational value in one sentence?
- What support does your product provide for students for whom English is not their first language, or for students with special educational needs or disabilities?
- How does your technology help to prepare young people for the jobs of tomorrow?

3. THE RESEARCH AND EVIDENCE

This area helps you to know that your purchase is founded on principles of evidence. Especially important given the increased accountability that schools face and the impact of austerity budgets.

- Where and how was your product tested? Do you have any results from pilot studies?
- How does your company draw on existing relevant research to ensure that its technology stays current and relevant to today's real-world classrooms?
- What research-based evidence do you have to prove that your product is effective?
- How were teachers or educators involved in the design or creation stages of your product?

PLAN BEFORE YOU VISIT BETT!

1. DOWNLOAD THE BETT APP

Our app has all the suppliers and agenda talks listed – if you 'favourite' the suppliers you'd like to see, you can then go to the floor plan on the app and it will pin them on the plan so you can map your route around the show.

2. CHECK OUT THE FILTERS ON OUR BETT ONLINE SUPPLIER LIST

Look up exhibitors by product type, by type of education institution they serve or to which region they export. You can also read a little more about what they have on offer.
